Exercise: Learning from My _____ Assessment

(Use this space to incorporate learnings from another assessment)

Autopilot off: Any reputable assessment can help me turn off Autopilot and see myself through a new lens.

Be Aware:

What new perspective(s) does this assessment enable me to have of myself?

What is most interesting about the results?

What is most difficult to see in the results?

How do the results here correspond with or support what I have learned about myself through other assessments?

Assess: On a scale of 1-10 (10 being awesome!), how might I increase my overall leadership effectiveness based on what I've learned in this assessment (ie I could improve from ___ to ___)?
